OBJECTIVE

Detail-oriented Data Analyst with over 3 years of experience in data analytics, workflow management, and reporting automation across enterprise and manufacturing environments. Proficient in Advanced Excel, SQL, Power BI, and Python, with a proven track record of cleaning, transforming, and analyzing complex company data to deliver reliable, decision-ready quantitative insights. Experienced in managing end-to-end data workflows from intake and QA within global ERP systems to presenting actionable business narratives to non-technical stakeholders.

EDUCATION

BSc (Hons) in Information Technology Specializing in Data Science | SLIIT
2025 | 2nd Class Lower Division

G.C.E Advanced Level - 2020 | Royal College, Colombo 07
2012 – 2020 | Physical Science Stream

EXPERIENCE

Link Natural Products (Pvt.) Ltd – Dompe, Sri Lanka

Senior Data & ERP System Analyst | Jun 2026 – Present

- Define and manage end-to-end data workflows, overseeing the intake, cleaning, transformation, and QA of complex operational datasets to support critical business decisions.
- Analyze structured and unstructured company data using Advanced Excel, SQL, and Power BI, uncovering relationships and generating actionable insights for leadership.
- Develop scalable reporting procedures and automated dashboards, translating complex analytical findings into clear, consistent stories tailored for non-technical stakeholders.
- Lead cross-functional initiatives and manage a team of analysts, prioritizing daily action items to ensure efficient time management and high-quality deliverables.
- Ensure operational continuity and data integrity across global SAP workflows, proactively identifying workflow bottlenecks and structural inconsistencies.

Data & ERP System Analyst | Feb 2025 – May 2026

- Performed robust SQL-based data extraction, transformation, and validation to ensure strict accuracy across enterprise reporting pipelines.
- Designed, updated, and maintained automated Power BI dashboards to track management KPIs and operational performance metrics.
- Collaborated tightly with internal business teams and external vendors on ERP initiatives, reviewing requirements and interpreting data trends to support strategic planning.

Junior Data & ERP System Analyst | Aug 2024 – Feb 2025

- Cleaned, structured, and analyzed service and operational metrics using Excel (formulas, pivot tables) and Power BI.
- Supported fast-paced business initiatives by assisting in database administration, ETL processes, and large-scale data migration activities.

EXPERIENCE

Link Natural Products (Pvt.) Ltd – Dompe, Sri Lanka

Data Analyst (Internship) | Feb 2024 – Jul 2024

- Executed SQL queries for data extraction and assisted in ERP system documentation to support foundational business reporting.

MAS Active Linea Intimo – Biyagama, Sri Lanka

Data Analyst (Internship) | Apr 2023 – Jan 2024

- Performed enterprise data cleansing, visualization, and automated reporting to support analytics deliverables.
